

Since 1883, physicians and health care professionals around the world have turned to *JAMA* for groundbreaking research and insightful commentary from leaders in medicine and health care.

As one of the most widely circulated general medical journals in the world, *JAMA* provides readers with essential medical information and a unique forum for discussions shaping the future of medical practice and public health.

Kirsten Bibbins-Domingo,
PhD, MD, MAS
Editor in Chief of *JAMA*
and the JAMA Network

Impact and Reach

Journal Impact Factor of 55, among the top 5 journals in medicine and science

Global Readership: More than 65 million annual article views and downloads and over 2.9 million email alerts received

International authors: More than half of all submissions come from outside the United States

Top Altmetric Scores

JAMA published 12 of the top papers in the last year among general medical journals

Extensive news and social media coverage, with over 98,000 media mentions in 2024 and 2025 in outlets such as *The New York Times*, *The Washington Post*, *The Wall Street Journal*, CNN, and the BBC and over 1.5 million social media followers

100% Online First

Daily online-first publication of all content, essential for timely publication

JAMA Express

Expedited peer review and online publication within 4 weeks of submission for late-breaking research to be presented at major scientific meetings and those with time-sensitive findings of major clinical or public health importance.

“Our original research content helps shape innovation and insights to guide the care of patients and improve the health of the public.”
