

Palliative Care Formulary

Empowering the palliative and hospice care community with independent, specialist information, grounded in clinical practice

Palliative Care Formulary (PCF) provides unrivalled, expert drug information for health professionals when caring for adult patients facing progressive life-limiting diseases.

Tailored for use in palliative and hospice care settings, this trusted source goes beyond standard references, providing health professionals with in-depth and practical guidance on drugs and treatment regimens to help improve quality of life.

Benefit from access to PCF's Syringe Driver Database, through Drug Compatibility Checker, a unique point-of-care tool providing quick access to clinical practice reports, contributed by the palliative and hospice care community.
